- Purpose of Progress theme
- How progress is achieved
- PRINCE2 log files
- PRINCE2 performance (time driven) reports
- PRINCE2 event driven reports
- Tolerances and exceptions

### **Advanced PRINCE2**

The purpose of the course is to focus on the application of PRINCE2 methodology in a real life environment. Hence the training covers the 7 Principles, 7 Themes and 7 Processes through case study assessment analytics and development.

We assume delegates are fully knowledgeable on PRINCE2 basics. Then as revision; the training first goes through a variety of questions pertaining to Principles, Themes and Processes. After this, delegates then go

through two different case studies and answer questions related to each case study.

Again, the sole purpose is to enable understanding of PRINCE2 application when implementing and managing a real project.

A total of 23 Project Management templates will be provided to help customise and manage project affectively.

1. Benefits Management Approach
2. Business Case
3. Change Control Approach
4. Checkpoint Report
5. Communications Management Approach
6. Daily Log
7. End Project Report
8. End Stage Report
