

LONDON CAPITAL COMPUTER COLLEGE

Advanced Diploma in Information Technology (104) – Email Communication & Internet Technology

Prerequisites: Good knowledge of file	Corequisites: A pass or higher in Diploma in
management.	Information Technology or equivalence.

Aim: Email (Outlook): This course provide introductory, intermediate and advanced level training using Microsoft Outlook. Candidates will be introduced to the features and capabilities of Outlook including: learning to manage contact information, creating reminder notes, managing the calendar, managing a task list, working with categories, preparing outgoing messages, handling incoming messages, integrating Outlook Mail with other tools and applications. The intermediate features of Outlook include: advanced features of managing e-mail, including using signatures and sorting inbox, planning meetings and assigning tasks, creating and editing notes, customising Outlook to meet user needs and integrating Outlook with Word. The advanced features of Outlook include: overview of Calendar features; including scheduling, editing and deleting appointments and events, recurring appointments and events, setting reminders, calendar views, printing options and advanced options.

Internet Explorer: This course provide candidates with an introduction to the concept of the Internet and the opportunity to gain a broad understanding of how the World Wide Web works. Candidates will become proficient at using the Internet Explorer browser, learning how to search for, find and access information on the Web using a variety of different software tools. They will be able to communicate information with others by means of Internet e-mail and newsgroups.

Required Materials: Recommended Learning	Supplementary Materials: Recommended
Resources.	textbooks and lecture notes.

Resources.	textbooks and fecture notes.		
Special Requirements: This is a hands-on course, hence practical use of computers is essential.			
Requires intensive lab work outside of class time.			
Intended Learning Outcomes:	Assessment Criteria:		
Outlook	Outlook		
1. Demonstrate how to navigate the	1.1 Demonstrate how to use the basic		
Outlook desktop information management	navigation tools including menus,		
program.	toolbars, and various display panes.		
	1.2 Work with the Notes module to create		
	several electronic sticky notes and		
	organise them by color and category for		
	future retrieval.		
	1.3 Look at other additional methods of		
	viewing information and navigating within Outlook, using the Outlook		
	Today, Folder List, and Arrange By		
	features.		
	1.4 Discuss how to use the Help facility in		
	Outlook		
2. Analyse the Mail module of Outlook.	2.1 Demonstrate how to send e-mail		
	messages and perform basic tasks.		
	2.2 Demonstrate how to create a message		
	and use message options from within		
	Outlook.		
	2.3 Demonstrate the various ways of		
	handling an e-mail messages: reading		
	and working with the Inbox feature		
	2.4 Demonstrate responding to an existing e-		
	mail by sending to a recipient other than		
	the original sender.		

3. Analyse the Contacts module of Outlook. 3.1 Demonstrate how to use the Contacts module by creating and editing a group of contact names. 3.2 Work with the various ways of viewing contact information. 3.3 Demonstrate how to create and use a distribution list to send e-mail messages simultaneously to a group of people using Outlook. 4. Analyse the Tasks and Calendar modules of Outlook. 4. Demonstrate how to use the Tasks module by creating and editing a group of tasks. 4.2 Worked with the various ways of displaying task information. 4.3 Demonstrate how to create and edit appointments by using the Calendar module. Internet Explorer 1. Navigate the Internet using the Internet Explorer browser. Internet Explorer 1. Describe how to use basic navigation tools to visit Web sites and move between the pages of the sites. 1.2 Work with the key functions of the Standard Buttons toolbar—including the Search button, which allow searching for Web sites based on criteria 1.3 Describe the Favorites and History buttons 1.4 Demonstrate how to use the Help feature in Internet Explorer. 2 Demonstrate how to customize the default settings of the Internet Explorer browser. 2.1 Describe how to change the default homepage to a Web site of your choice. 2.2 Work with various methods of changing the screen size from Full Screen mode to adjusting window pane widths. 2.3 Describe how to add new buttons to both the Links bar and Standard Buttons toolbar. 2.4 Demonstrate how to change the security settings on the Internet Explorer. 3 Demonstrate how to save Web content offline using the Internet Explorer. 3.1 Describe how to save a Web page in different formats that could later be retrieved offline. 3.2 Work with the Offline Favorite Wizard, which allow you to manually or automatically update content from your favorite Web sites. 3.3 Demonstrate how to print content from the Internet Explorer browser. 4 Perform interoperability functions with other software packages using the Internet Explorer browser. 4.1 Learn how to perfor		2.5 Demonstrate how to file messages and work with the Folder List feature in Outlook.
contact information. 3.3 Demonstrate how to create and use a distribution list to send e-mail messages simultaneously to a group of people using Outlook. 4. Analyse the Tasks and Calendar modules of Outlook. 4.1 Demonstrate how to use the Tasks module by creating and editing a group of tasks. 4.2 Worked with the various ways of displaying task information. 4.3 Demonstrate how to create and edit appointments by using the Calendar module. Internet Explorer 1 Navigate the Internet using the Internet Explorer browser. Internet Explorer 1.1 Describe how to use basic navigation tools to visit Web sites and move between the pages of the sites. 1.2 Work with the key functions of the Standard Buttons toolbar—including the Search button, which allow searching for Web sites based on criteria 1.3 Describe the Favorites and History buttons 1.4 Demonstrate how to use the Help feature in Internet Explorer. 2.1 Describe how to change the default homepage to a Web site of your choice. 2.2 Work with various methods of changing the screen size from Full Screen mode to adjusting window pane widths. 2.3 Describe how to add new buttons to both the Links bar and Standard Buttons toolbar. 2.4 Demonstrate how to save Web content offline using the Internet Explorer browser. 3 Demonstrate how to save a Web page in different formats that could later be retrieved offline. 3.2 Work with the Offline Favorite Wizard, which allow you to manually or automatically update content from your favorite Web sites. 3.3 Demonstrate how to print content from the Internet Explorer. 4 Perform interoperability functions with other software packages using the Internet 4 Perform interoperability functions with other software packages using the Internet 4 Perform interoperability functions with other software packages using the Internet 4 Learn how to be perform a Windows		module by creating and editing a group of contact names.
distribution list to send e-mail messages simultaneously to a group of people using Outlook. 4. Analyse the Tasks and Calendar modules of Outlook. 4.1 Demonstrate how to use the Tasks module by creating and editing a group of itasks. 4.2 Worked with the various ways of displaying task information. 4.3 Demonstrate how to recate and edit appointments by using the Calendar module. Internet Explorer 1 Navigate the Internet using the Internet Explorer browser. Internet Explorer 1.1 Describe how to use basic navigation tools to visit Web sites and move between the pages of the sites. 1.2 Work with the key functions of the Standard Buttons toolbar—including the Search button, which allow searching for Web sites based on criteria 1.3 Describe the Favorites and History buttons 1.4 Demonstrate how to use the Help feature in Internet Explorer. 2 Demonstrate how to customize the default settings of the Internet Explorer browser. 2.1 Describe how to change the default homepage to a Web site of your choice. 2.2 Work with various methods of changing the screen size from Full Screen mode to adjusting window pane widths. 2.3 Describe how to add new buttons to both the Links bar and Standard Buttons toolbar. 2.4 Demonstrate how to change the security settings on the Internet Explorer. 3 Demonstrate how to save Web content offline using the Internet Explorer browser. 3.1 Describe how to save a Web page in different formats that could later be retrieved offline. 3.2 Work with the Offline Favorite Wizard, which allow you to manually or automatically update content from your favorite Web sites. 3.3 Demonstrate how to print content from the Internet Explorer. 4 Perform interoperability functions with other software packages using the Internet Explorer browser. 4.1 Learn how to send a hyperlink and a Web page in a certain. 4.2 Learn how to perform a Windows
